

Members Gallery Images (.jpg) for new website

One Thumbnail per person for the member's gallery index page
150 wide 100 high
96 dpi

One Title slide per person for the banner on your gallery
1000 wide x 100 high

10 to 12 images for the gallery
no more than 600 wide x 400 high
(we will pad them out to 600x400 with black) at 96 dpi
name with your name & the order of presentation e.g. kim-annan-01.jpg

Add a title & author to the image properties, if that's not easy on your system, send us a list of the titles.

To recap, one thumbnail, one title-slide and 10-12 images would be great, plus either a list of the titles or titles in the image-file properties. If you have a web site send us the link to it & we will link your name on your gallery page to your website.

If you have been able to resize your images you can email them to natureph@naturephotography-nz.org, otherwise request a dropbox from Kath to put them on the web, or bring them to a meeting on a memory stick or CD.
